ABOUT VIC CIVIL

Vic Civil was established in 2008 by Managing Director Aaron Taylor, a Civil Construction Company with a difference. Vic Civil boasts a **One Stop Shop** in the Civil and Infrastructure Industry. A dedicated long-term focus on building in-house resources, knowledge and innovation, we offer clients exceptional value on schedule and to budget. The Vic Civil team provide a **can-do culture**, delivering projects in a safe, effective and efficient manner. A peace of mind for our clients when delivering fast, complex and critical projects. Long-term relationships with our clients and our reputation throughout Victoria is testimony to our success in the Civil Construction Industry.

A move away from a subcontract-based business model to one focussed on building skills and abilities in-house, gives Vic Civil the ability to tackle a wide range of projects, whilst providing employees with long term careers, not just jobs. Our people are the foundation of our company and our most valuable asset. Our dedicated workforce of qualified and experienced Engineers, Carpenters, Concreters, Machine Operators and Labourers are capable of delivering large scale projects across a number of industry sectors.

Our clients find our methods refreshingly easy to work with, highly productive and efficient – read on to learn more...

OUR SERVICES

SURVEY

- Site Support
- Modeling / Design
- 3D Scanner
- Service Location

DESIGN

- Temporary Works
- Geo-technical
- Structural
- Environmental / Assessment and Validity

KEY PROJECTS

MURL CIVIL WORKS

Client: RCR Infrastructure

Vic Civil is the main Contractor to RCR Infrastructure delivering design and construction services for a tiered basement structure, as well as structural concrete works adjacent to live rail. The works encompass 1000m³ of concrete and shotcrete installation, retention system construction and bulk earthworks. In addition, a significant demolition scope within the vicinity of the live underground rail loop is also required to be undertaken.

ABBOTTS ROAD LEVEL CROSSING REMOVAL

Client: McConnell Dowell

Vic Civil was the sole contractor undertaking roadworks required to reinstate the Abbots Road Level Crossing. Works generally consisted of excavation, subgrade remediation, drainage and kerb installation, asphalt pavement construction and line marking. Works were undertaken on night shift under a full road closure. Using this construction methodology on this major road for the local area, road users and adjacent business owners were not impacted by the works during business hours. Vic Civil was able to deliver these works 2 weeks ahead of programme in mid-2018 – a great result for the local community.

MELBOURNE EXHIBITION AND CONVENTION CENTRE

Client: Probuild

Vic Civil was key Civil Contractor throughout the life of the Melbourne Convention and Exhibition Centre Redevelopment. Providing construction support from the Early works phase, foundation construction phase, suspended concrete slabs utility installation and council / Vic Roads interface works, Vic Civil was key to implementing construction methodologies to meet the clients tight construction time frame. External Loading Docks consisting of heavy duty asphalt and concrete pavements were also installed as part of these works.

OUR FLEET

At Vic Civil we host a diverse range of plant and equipment. Our mechanical and engineering workshop ensures all our equipment is fit for purpose and safe prior to arriving on-site.

EXCAVATORS

50T Excavator
35T Excavator
30T Excavator
26T Excavator
20T Excavator
14T Excavator
8T Excavator
5 x 5 Excavator
3 x 3 Excavator
3 x 2.7 Excavator
1.7T Excavator
1T Excavator
0.8T Excavator

LOADERS/DOZERS

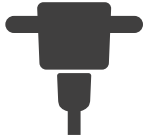

2 x Skid Steer Loader
1 x Trascavator

TRUCKING

- 5 x Truck & Trailer
- 1 x Semi Tipper
- 1 x Prime Mover Float
- 2 x Tandems
- 1 x 10,000L NDD / HydroVac Truck

SPECIALIST MACHINERY

- GPS Lazer Screed
- Slip-form Paver
- Micro-piling Rig - 16m depth / 750mm diameter
- Trailer Concrete Pump
- Motorised Gutter Barrows
- Custom Dowel Drill

ATTACHMENTS

- Hydraulic Breaker (All Sizes)
- Hydraulic Muncher
- Augers
- Profiling Heads
- Sweepers
- Grabs
- Screw Piles
- Sorting Buckets
